INFORMATION SYSTEMS ENGINEERING

PROFILE

I love designing, developing and developing things and taking responsibility. I'm pretty ambitious. If I really want a job, I will get it done as soon as possible. My goal is not to be the best in my field, but to benefit by doing the best. I always carry out my studies by considering new knowledge and specialization. I want to improve myself in the product management department

EXPERIENCE

INTERN

PIR Software and Information Technologies Industry Limited Company (01/07/2019- 15/08/2019)
